Profile

As a recent graduate with a degree in Computer Science, I am eager to embark on a career in software engineering. My passion for coding and problem solving, coupled with my adaptability and fast learning ability, positions me as a valuable asset to any software development team. I am excited to contribute my skills and enthusiasm to a dynamic environment where I can continue to learn and grow as a software engineer.

Skills

Technical Skills

- Programming Languages: Java, Python, JavaScript, C#, C++
- Backend Development: ASP.NET
- Web Development: HTML, CSS, Angular
- Database Management: MS SQL Server
- Version Control: Git

Soft Skills

- Problem-Solving
- Communication
- Teamwork
- Adaptability
- Critical Thinking
- Attention to Detail

Education

2020 – 2024

Irbid, Jordan

Bachelor of Computer Science

JORDAN UNIVERSITY OF SCIENCE AND TECHNOLOGY [🌐](#)

Professional Experience

2024/07 – 2024/09

Amman, Jordan

Associate Software Engineer

- **Team Collaboration:** Actively collaborated with a cross-functional team of developers, designers, and product managers using Agile methodologies, enhancing my ability to work effectively in a team environment.
- **Communication Skills:** Developed strong communication skills through daily stand-ups, code reviews, and collaborative problem-solving sessions, ensuring alignment and clarity across all team members.
- **API Integration:** Gained hands-on experience in integrating RESTful APIs into web applications, improving my understanding of API design and consumption.
- **Advanced OOP & Design Patterns:** Applied advanced object-oriented programming principles and design patterns (such as Singleton, Factory, and Observer) in real-world projects, leading to more efficient and maintainable codebases.
- **Angular Development:** Contributed to the development of single-page applications (SPAs) using Angular, mastering key concepts like components, services, routing, and state management.
- **ASP.NET [🌐](#) Core Development:** Worked on building and maintaining scalable web applications using ASP.NET [🌐](#) Core.

Projects

present

Graduation Project

Healthcare Management System

Technologies Used: ASP.NET MVC, C#, Bootstrap, Entity Framework, SQL Server

Description: Developed a comprehensive web application for managing medical consultations, prescriptions, and patient records, enhancing the efficiency of healthcare providers.

Flappy Bird [↗](#)

A video game (flappy bird)

Tool: Python

Calculator [↗](#)

A simple calculator with a one expression a time

Tool: Java

Courses

2024/04 – 2024/07

Amman, Jordan

ASP.NET

The Hope International
