## EXPERIENCE

### CMO & co-founder, Egypt— Welmnt

December 2023 - present

Working with a startup that I have co-founded as the CMO, utilizing Figma & Canva.

### FrontEnd Team lead & UI/UX designer, Egypt— Welmnt

December 2023 - present

Working with a startup that I have co-founded as the frontend tech lead utilizing Jira, Typescript, React, Next and Tailwind .

### UI/UX freelancer, Egypt— Freelance

February 2023 - PRESENT

As a designer and web developer, I've managed to utilize my skills and work on multiple freelance projects including Welmnt, Wasalny, & Serv.

### FrontEnd developer intern, Egypt— Subsbases

August 2023 - September 2023

Worked on SubsBase's innovative subscription management system, specifically the notification-center using VUE, Axios API and Socket.io.

### Fullstack developer, Egypt— Freelance

March 2023 - PRESENT

I've been working as a freelancer on multiple projects since 2022.

### Celeste, Egypt— Business Owner

October 2021 - PRESENT

I manage my own small-business by myself alongside my studies. I design the jewelry as well as manage social media, marketing, events, finance, PR, and much more.

## Graphic Design Freelancer, Egypt— *Freelance*

February 2023 - PRESENT

As an artist, I've managed to create a side hustle out of my unique and creative designs and work on some freelance projects including branding, illustration and content creation.

## PROJECTS

### Welmnt — Branding & Illustration

Using figma, Canva & Gimp, I worked on the visual identity & illustrations for a startup I'm partnering in. More info available at welmnt.com

### Welmnt — UI/UX & Frontend

Using figma, react-next, typescript and tailwind I worked on a web-app for a startup I'm partnering in. More info available at welmnt.com

### Wasalny— UI/UX design & illustration

Using figma I crafted the website for Wasalny Mobility App, along with some illustrations.

### Serv— UI/UX design

Using teleportHQ I worked on the design for Serv F&B Web-App.

### Vite Clinic & Meds — Virtual Clinic & Pharmacy Web-app

Using MERN, Next.js & Redux I've collaborated on a clinic & pharmacy system featuring video-chats, reservations, e-commerce and more!

### Apocalypse — OpenGL Game

Using C++, OpenGL, along with 3ds models and Blender I worked on a realistic apocalypse 2-level game featuring approaching creatures, shooting, collectibles and much more!

### APEX banking— *Website for online banking*

Using react-bootstrap, my team & I managed to create a fully functional online banking website with multiple interfaces: for clients, bankers & admins, where all banking operations are available to the user.
