PROFESSIONAL SUMMARY

I'm a versatile professional with skills in computer engineering, coding, and software engineering. I bring a blend of technical expertise and creative flair to seamlessly integrate functionality in projects.

EXPERIENCE

Internship – Software Engineering At Tech Process Solution Company

Hybrid

03/03/2024 - 10/06/2024

- As a trainee at Tech Process Solution, I specialized in web development using ASP.NET Core 7.0. During this intensive training program, I developed robust web applications and gained hands-on experience in modern web development practices. My training culminated in a comprehensive project where I applied my skills to design, develop, and deploy a fully functional web application. I successfully presented this project to my peers and supervisors, demonstrating my ability to deliver high-quality software solutions and effectively communicate technical concepts.

Internship – Embedded & Software Developer At SEDCO Company

In Site

17/09/2024 - 14/10/2024

Completed a one-month training at SEDCO as an Embedded and Software Developer, where I focused on developing small console applications in C language. This experience allowed me to strengthen my programming skills, working on practical assignments that honed my problem-solving abilities and attention to detail.

ACCOMPLISHMENTS

Mobile App – Graduation Project

- Developed at Jordan University of Science and Technology's Computer Engineering Department, Doraemon is a mobile app designed to help students manage their time and tasks effectively. It features an AI-driven chatbot, Calendar & To-Do List, Pomodoro Timer, Reminders, Home Control, User Connections, and Eye Comfort Dark Mode. **Built using Flutter and Firebase**, the project also incorporated hardware components such as an ESP8266 and a simple LED for the demonstration.

CORE QUALIFICATIONS

- JAVA Programming.
- C/C++/C# Programming.
- Flutter/Dart Programming.
- SQL server management studio.
- FireBase.
- HTML.
- Java Script.
- Team working.
- Hard-working.
- Quick Learner.
- Good English skills writing and speaking.
- Problem Solving.

EDUCATION

2024

Jordan university of science and technology (JUST)

Irbid

Fresh Graduate
Computer Engineering

Having graduated with a degree in Computer Engineering and an excellent GPA of 3.58, I've established a robust foundation in computer science and engineering principles. Throughout my academic journey, I've honed strong problem-solving skills and deepened my understanding of cutting-edge technologies. Now, I am eager to apply this knowledge in real-world scenarios and am enthusiastic about contributing to the dynamic field of computer engineering.
